## Press Release

Tube-Fab Ltd. and Mitsubishi Heavy Industries Canada Aerospace signed a 5-year renewal of existing manufacturing agreement for Global Express fluid delivery components.

Tube-Fab Ltd. an AS9100 and ISO9001 certified enterprising player in the tube and pipe fabrication industry, is pleased to announce the execution of a multi-year agreement for numerous airframe and fuselage fluid delivery components with Mitsubishi Heavy Industries Canada Aerospace (MHICA).

This renewal of this manufacturing agreement with MHICA is a testament to the successful partnership Tube-fab and MHICA have shared for the past 10 years. Tube-Fab and MHICA continue to explore new ways to enhance this relationship and provide continued support to one another during this unprecedented time in Aerospace Manufacturing.

Mitsubishi Heavy Industries Canada Aerospace (MHICA) is a Group Company of Mitsubishi Heavy Industries (MHI) headquartered in Tokyo, Japan.

Mitsubishi Heavy Industries Canada, located in Mississauga, Ont., manufactures heavy aero structures for Bombardier, including the Challenger 350 wing and the Global 5500 wing and center fuselage section.
