

Specifications and Approvals

ISO 9001:2000 & AS 9100

NADCAP Approved in Welding
and Chemical Processing

Finishing – Alodine/Alkaline/Titanium Etch/Citric
Passivation/Paint Booth for Epoxy Prime

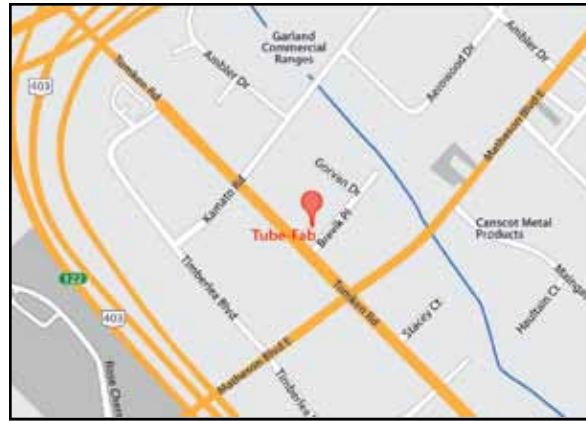

Chemical Processing in Compliance with:

- AC7108 Rev D - Nadcap Audit Criteria for Chemical Processing
- Conversion/Phosphate Coatings – MIL-C-5541
- Conversion/Phosphate Coatings – MIL-DTL-5541
- Conversion/Phosphate Coatings – Other
- Surface Treatment/Citric Passivation – ASTM A 967
- Surface Treatment/Citric Passivation – Other

- Titanium Alloys Cleaning/Deoxidization and Welding
- Aluminum Alloys Cleaning/Deoxidization and Welding
- Stainless Steel Alloys Cleaning and Welding
- Cleaning and application of Epoxy Primers per MIL-PRF-23377 and MIL-PRF-85582
- Cleaning and application of Polyurethane Coating per MIL-PRF-85285

Metal Finishing

TUBE-FAB Ltd. is a turn-key manufacturing company with unparalleled expertise in metal finishing, chemical processing and painting services.

With over five decades of experience, we have mastered the technical requirements of Vapor Degreasing, Citric Passivation, Alodine, Preparation and Paint for all types of metal products and components. Corporations both large and small from a wide variety of industries have been serviced by our expert finishing and service staff.

TUBE-FAB Ltd. is a committed partner, known for the highest standard of metal finishing. A pacesetter in the industry with competitive pricing and turnaround times that will keep your operations moving.

Quality

Our in-house laboratory provides for constant supervision and consistent high-quality results.

Catering to All Industries

Reliable, highly-skilled, cost efficient service to a wide variety of industries requiring finishing expertise:

- Aerospace
- Rail
- Transportation
- Defense and Security
- Power Generation
- Nuclear
- Marine
- Medical
- Automotive
- Industrial
- Commercial
- Robotic
- Pharmaceutical
- Architectural
- ... and more.

Reliability

Consistent performance and reliable results reduce downtime and keep your profits flowing. The high in-house standards that we hold for ourselves, mean we're always ready for you.

Efficient

TUBE-FAB Ltd. has 3 potential shifts to meet your deadline requirements. Our expert staff and highly certified procedures and systems allow us to process batch runs faster.

Services

Vapor Degreasing

Alodine and Chemical Preparation for Aluminum Tubular, Machined, Sheet Metal Parts and Components

Citric Passivation for Stainless Steel

Alkaline Cleaning for Titanium

Etching for Titanium

Painting

Pressure Testing

Part Marking

Inspection and Certification

Local

TUBE-FAB Ltd is in close proximity to you. This helps avoid costly lead times and high transportation costs.

Contact Us For A Quote

Call, fax or email us your questions and requests for quotation or your biggest problems and we'll be your solutions provider.
